Lands the World Has Never Seen

Judy Barrows ©8/10/17

Em/capo 3 => Gm

Em D
First there are triangles, of blue or gold or grey

Em D
Around them peer the animals, from half a world away

G D
Others leap from peak to peak, or hide in corners dark

Em D
While leaves spring up around them, in that wild jungle park

G D
It's a land the world has never seen, more true than those that be

B7 Em
Full of life and beauty, it brings a smile to me

Sometimes there's a prairie, reaching out to meet the sky
With only a few antelope, or horses racing by
But wait – I see a little mouse, a lizard ventures out
The more you look, the more you'll see; life is all about

(chorus)

Cats that are true calico, nestled on a bed
Dalmatians running through the fields, as a brown cow lifts her head
Hens scratching in the barnyard, watched by a rooster bold
Hex signs painted on the barn, and tools that don't grow old

(chorus)

Fish swim in sparkling waters, midst diamonds blue and green
Mountain goats climb icy cliffs, while snowy owls preen
Ladies ride on tigers, striped men on zebras tall
While high above … a blue moon, shines down upon them all

They are lands the world has never seen, more true than those that be
Full of life and beauty, they bring a smile to me

Lands the world has never seen, more true than those that be
Full of life and beauty, they bring a smile to me.
